

Smart Surveillance

Secure your surveillance system with Transcend's PLP and SLC Mode SSDs

Designed for use with surveillance systems, Transcend's BiCS 5 based SSDs are available with Power Loss Protection and SLC Mode technologies. Protect your critical data with guaranteed write and save before power loss, and enjoy faster read and write speeds with improved durability for high-intensity surveillance applications. Upgrade your surveillance system with confidence.

High Uptime

Power Loss Protection (PLP) & SLC Mode technologies ensure data transfer with high integrity.

Optimized Efficiency

LDPC ECC algorithms prevent data corruption.

Comprehensive Product Line

Various form factors for different systems and interfaces.

Featured Products

PCIe M.2 2280

MTE712P

SATA III M.2 2280

MTE560I

SATA III 2.5"

SSD470P

SATA III 2.5"

SSD550I

DDR4 3200

ECC-DIMM (VLP)
